Vinyl-Tek Shutters
July 15th 2009 to October 1st 2012
System Developer & Shutter Production Manager

- Organize incoming orders for vinyl shutters by square footage, client priority and required date.
- Developed "ShutterBoss", a web based system that automated the process of inputting orders into the production schedule and automatically send email confirmations to clients.
- Other Shutter Boss features includes:
 - Production list Intranet site that allowed 2 way communication between the plant manager and myself.
 - Intranet site that allowed President and supervisors to browse all production orders since the system was activated in 2010.
 - Create production reports and year to date charts as well as forecast required materials based on upcoming order variables such as colour, size, frame types etc
 - Monitor each stage of the shutter production line and track employee performances and quotas
